Lighting Group

Here are some photos from the September Lighting Group get together.

We used one, and in some cases, two light modifiers as you can see in the behind the scenes image.

The next learning opportunity in October will be working with a green screen. An example of that is the photo with the mountains in the background. That was taken at TBG!

Come join us on Saturday, October 19th in the club house at 10am for our next Lighting group meeting!

Members Photos Out and About

If you have winning photos in other contests or have your photos displayed for the general public, let me know so we can share it with the club.

Members Equipment For Sale

If you have a piece of photo equipment you are either looking to sell or looking for, this newsletter will be an option for you.

Up for sale is a Tamron SP AF70-200 F/2.8 Di LD (IF) Macro lens with Canon mount. This was the last model Tamron made before they added VC, so it DOES NOT have VC. I purchased this lens new a few years ago and it has been my workhorse. I've used it for a handful of weddings and equine event photography as well as a walk around lens for a long time. It is in excellent condition and still works good, it is just time for me to upgrade as equine events have become the back bone of my business. Glass and lens are clean and have little wear. As much as I have used it, I have taken extremely good care of it. It comes with the box, original bag, both end caps and the tripod mount. Asking \$500 negotiable, Any questions please email (whitemodelhorse@hughes.net) or ask me. Thanks.
